UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Informations about the Fund

Classification

International equities.

Method used to determine and allocate distributable amounts

Capitalisation and/or distribution of income at the discretion of the Asset Manager.

Tax regime

The Fund is eligible for life insurance policies. The Fund may also serve as an investment vehicle for unit-linked life insurance policies.

The UCITS, by its nature, is not subject to taxation. However, unitholders may be subject to tax on any income distributed by the fund or when they sell its units. Taxes applicable to the amounts paid out by the Fund and to realised or unrealised capital gains or losses generated by the Fund depend on the tax laws applicable to each individual investor, their tax residence, and/or the Fund's investment jurisdiction. Any investors unsure of their tax status should contact a tax advisor or professional in order to determine the tax rules that apply to their individual situation, before carrying out any investment. Some income distributed by the UCITS to non-residents in France may be subject to a withholding tax in France.

Benchmark index

The Fund's benchmark index is the euro-denominated STOXX® Europe 50 index, net dividends reinvested (total net return).

The STOXX Europe 50 index is an "equities" index calculated and published by international index provider STOXX Ltd. ("STOXX"). The STOXX Europe 50 index is a sub-category of the STOXX® 600 index. It is composed of the 50 most important stocks of 18 European countries. The equities in the index cover all economic sectors, and are selected for their level of market capitalisation, their liquidity, and their sector weighting.

The STOXX Europe 50 index covers around 60% of the free float-adjusted market capitalisation of the European markets represented by the STOXX 600 index.

Management fees and commissions

Operating and management fees: 0.15% including tax.

Subscription commissions payable to the Fund: None.

In accordance with the regulations, the actual rates for this fund, during the past financial year, are consistent with those mentioned in the detailed memorandum and listed in the following sections:

- Notes to the annual financial statements/- Management fees
- Shareholders' equity/- Subscription and/or redemption fees/- Management fees

Investment objective

The Fund's investment objective is to replicate the performance (positive or negative) of the STOXX Europe 50 index (see "Benchmark Index" section) as closely as possible.

The aim of the fund management strategy is to generate the smallest difference possible between the change in the NAV of the Fund and that of the STOXX Europe 50 index (hereinafter the STOXX Europe 50 index"). The targeted maximum tracking error between the change in the Fund's NAV and that of the STOXX Europe 50 index is thus 2%.

If at any point the tracking error were to exceed 2% despite this, the objective would be to remain below 15% of the volatility of the STOXX Europe 50 index.

Investment strategy

The Fund is managed "passively".

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

1. Strategy employed:

The Fund is managed using a technique known as “index-tracking”, the objective of which is to replicate changes in the performance of the STOXX Europe 50 Index using a swap-based replication method.

To maintain the closest possible correlation with the performance of the STOXX Europe 50 Index, the Fund will buy a diversified basket of equities (the “Basket”) and an over-the-counter (OTC) total return swap, a financial derivative instrument which turns the exposure to the securities in the Basket into exposure to the STOXX Europe 50 Index.

The Fund shall observe the investment rules stipulated in Articles R214-21, R214-22 and R214-23 of the French Monetary and Financial Code.

The Portfolio, comprising directly held assets described in the “Assets used” section, complies with the provisions of Article R 214-21 of the French Monetary and Financial Code (CMF).

The Fund’s exposure to the Index achieved through the total return swap may be eligible for exemption ratios applicable to the index-tracking UCITS referred to in Article R214-22 of the French Monetary and Financial Code (CMF). That Article stipulates that an index may comprise up to 20% equities or debt securities issued by the same entity; this limit may be raised to 35% maximum for a single issuing entity, when such increase is justified by special market circumstances such as on regulated markets where some marketable securities or some money-market instruments are largely dominant.

The UCI does not take into account environmentally sustainable economic activities as defined by the Taxonomy Regulation and it does not, therefore, take into account the European Union criteria in this regard.

2. Assets used (except embedded derivatives):

The Fund’s exposure to the Index is achieved through the total return swap.

The Portfolio consists of the Fund’s directly held assets described below.

- Equities:

At least 60% of the Fund will be permanently exposed to a foreign equity market or equity markets in a number of countries, including the French market when appropriate.

Up to 100% of the Fund’s net assets will be invested, subject to the legal and regulatory ratios, in international equities (any economic sector, traded on any market). However, in the event of adjustments associated with subscriptions/redemptions, investments may exceed this limit on a residual basis.

The stocks in the Fund’s portfolio will consist of stocks included in the STOXX Europe 50 Index and other international stocks, from all economic sectors, including small-cap markets. The equities in the Fund’s assets will be chosen so as to limit the costs of replicating the STOXX Europe 50 Index.

At least 90% of the Fund will be permanently invested in listed shares. For the purposes of interpreting this ratio, shares issued by REITs (as defined by the German Ministry of Finance) or UCIs are not considered as shares.

- Interest rate instruments:

Up to 25% of the Fund’s net assets may be invested in any kind of bond instruments.

Portfolio securities will be selected according to management decision and in compliance with the internal credit risk monitoring policy of the Management Company.

For the purpose of stock picking, management does not, either exclusively or mechanically, rely on the ratings issued by rating agencies, but bases its buy and sell convictions of a security on its own credit and market analyses. For information, management may specifically deal in securities with minimum ratings, at the time of purchase, of BBB- in the S&P and Moody’s scale (“investment grade” rating).

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments. Foreign debt instruments will be denominated in the currency of one of the OECD member countries.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

In order to meet its investment objective and/or manage intermediate cash flows, the Fund may hold up to 10% of its assets in the following:

- Euro-denominated debt instruments and money-market instruments:
cash flow is managed through money market instruments.

Portfolio securities will be selected according to management decision and in compliance with the internal credit risk monitoring policy of the Management Company.

For the purpose of stock picking, management does not, either exclusively or mechanically, rely on the ratings issued by rating agencies, but bases its buy and sell convictions of a security on its own credit and market analyses. For information purposes, management may specifically deal in securities with minimum ratings of AA in the S&P and Moody's scale.

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments. The average maturity of these instruments will not exceed ten years.

- UCITS units or shares:

The Fund may hold up to 10% of its assets in units and/or shares of UCITS. These UCITS are representative of all asset classes, in compliance with the Fund's requirements.

They may be UCITS managed by the Management Company, or by other entities, which may or may not belong to the Crédit Agricole SA Group, including related companies.

3. Derivatives:

The Fund will use OTC derivative financial instruments, in particular futures such as total return swaps, to swap the value of stocks held by the Fund for the value of the STOXX Europe 50 Index.

The Fund may take positions in the following derivatives:

- Types of markets:
 - ☒ regulated
 - ☒ organised
 - ☒ OTC
- Categories of risks in which the Fund intends to take a position:
 - ☒ equity risk
 - ☐ interest rate
 - ☒ currency
 - ☐ credit
 - ☐ volatility
- Types of transactions and description of all operations that must be limited to the achievement of the investment objective
 - ☒ hedging
 - ☒ exposure
 - ☐ arbitrage
 - ☐ trading
 - ☐ other
- Types of instruments used:
 - ☒ futures : on equities and indices
 - ☒ options : on equities and indices
 - ☒ total return swaps : on equities and indices.

The Fund may enter into exchange contracts in two combinations from the following types of flows:

- fixed rate
- variable rate (indexed to Eonia, Euribor, or any other market benchmark)
- performance linked to one or more currencies, equities, stock market indices or listed securities, UCIs, or investment funds

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

- dividends (net or gross)
- ☒ total return swaps
- ☐ other

- Strategy for using derivatives to achieve the investment objective:
 - ☒ constructing synthetic exposure to a particular security, sector and/or to the STOXX Europe 50 Index via the use of total return swaps.
 - ☒ management of intermediate cash flows (dividends, subscriptions/redemptions, etc.) to reach the desired degree of exposure to a particular stock and/or sector and/or to the STOXX Europe 50 Index via the use of futures.
 - ☒ management of intermediate cash flows (dividends, subscriptions/redemptions, etc.) to reach the desired degree of exposure to a particular stock and/or sector and/or to the STOXX Europe 50 Index via the use of options.

These instruments may be used to hedge up to 100% of the Fund's net assets.

For information purposes, when the Fund is being set up, total return swaps represent approximately 100% of net assets and they represent up to 110% during its life cycle.

The assets held by the Fund, and on whose performance the total return swaps focus, are retained by the depositary.

The forward total return swap is kept in position in the depositary's books.

The commitments arising from derivatives must not exceed 110% of net assets.

4. Securities incorporating derivatives ("embedded derivatives"):

None.

5. Deposits and liquid assets:

The Fund may hold up to 20% of its net assets in deposits for a maximum term of twelve months. The deposits are used for cash management purposes and help the Fund achieve its cash management objectives.

6. Borrowing:

The Fund may temporarily, and in exceptional cases, borrow up to 10% of its net assets in order to optimize its cash flow management.

7. Transactions involving temporary acquisition/disposal of securities:

None.

Information relating to financial guarantees (temporary purchases and sales of securities) and total return swaps:

Type of collateral:

In the context of temporary purchases and sales of securities and OTC derivative transactions, the Fund may receive collateral of securities and cash.

The discounts that may be applied to the collateral received will take into account the nature, maturity, credit quality, currency and price volatility of the securities and the results of the stress tests performed.

The securities received as collateral must adhere to the criteria defined by the Management Company. They must be:

- liquid
- transferable at any time
- diversified in compliance with the eligibility, exposure and diversification rules of the UCITS
- issued by an issuer that is not an entity of the counterparty or its group.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

For bonds, the securities will also be issued by high-quality issuers located in OECD countries with a minimum rating ranging from AAA to BBB- on the Standard & Poor's scale or with a rating deemed equivalent by the Management Company. Bonds must have a maximum maturity of 50 years.

The criteria described above are detailed in a Risk Policy available on the Management Company's website at www.amundi.com and may be subject to changes, particularly in the event of exceptional market circumstances.

The discounts that may be applied to the collateral received will take into account the credit quality, the price volatility of the securities and the results of the stress tests performed.

Reuse of cash received as collateral: Cash received as collateral may be reinvested in deposits, government bonds, repurchase agreements or short-term money-market UCITS in accordance with the Management Company's Risk Policy.

Reuse of securities received as collateral:

Not authorised: Securities received as collateral may not be sold, reinvested or pledged as guarantee.

Overview of the procedure for choosing intermediaries and any comments:

The Management Company generally issues a bid tender. In this case, a comprehensive Request For Proposal ("RFP") (total return swap and market making) was issued for a portion of the AMUNDI ETF Fund product line. For this reason, the Management Company has not undertaken nor shall undertake, for this particular Fund, a formal competitive bidding procedure that can be tracked and monitored among counterparties for OTC derivative financial instruments, as the counterparty has already been selected during the comprehensive RFP.

The Fund may carry out these transactions with BNP Paribas SA or any other Company of the BNP Paribas SA group as counterparties or intermediaries.

e) Type and quality of collateral

Amundi Asset Management undertakes to accept only securities of a high credit quality and to increase the value of its collateral by applying valuation discounts to securities loaned to it. This process is regularly reviewed and updated.

i) Reuse of collateral

« The regulations governing UCIT forbid the reuse of collateral securities. Cash collateral received is:

- reinvested in short-term money market funds (as defined by ESMA in its 'Guidelines on ETFs and other UCITS issues')
- placed on deposit;
- reinvested in high-quality long-term government bonds
- reinvested in high-quality short-term government bonds
- used for the purpose of reverse repurchase transactions.»

The maximum proportion of received collateral that may be reused is 0% in the case of securities and 100% in the case of cash.

The effective usage amounts to 0% for collateral securities and 100% for cash collateral.

k) Custody of collateral provided by the UCI

Amundi Asset Management undertakes to do business with a limited number of depositaries, selected to ensure the adequate custody of securities received and cash.

I) Breakdown of revenue and expenses

For securities lending transactions and repurchase agreements, Amundi Asset Management has entrusted Amundi Intermédiation, acting on behalf of the UCITS, with the following responsibilities: selecting counterparties, ordering the implementation of market agreements, monitoring counterparty risk, performing qualitative and quantitative monitoring of collateralisation (dispersion checks, ratings, liquid assets), repurchase agreements and securities lending. Income generated from these transactions is paid into the UCITS. Costs generated by these transactions are incurred by the UCITS.

Specific details

Voting rights

In accordance with the Fund's Rules and the Fund Manager's stated policy, the Fund Manager exercises the voting rights attached to the securities held by the Fund and decides on contributions in the form of securities, except where the securities are those of the Fund Manager itself or of any associate company as defined in Art L. 444-3 of the French Labour Code (Code du Travail).

Two documents, "Voting Policy" and "Report on the Exercise of Voting Rights", prepared by the Fund Manager in compliance with the current regulations are available upon request. This mutual fund (OPC) has not been selected as one of the funds which currently exercise voting rights.

Movement commission

The Fund Manager has received no commissions on trade.

Soft commission

The Fund Manager has received no "soft" commissions.

Use of credit derivatives

The Fund has not used credit derivatives during the period under consideration.

Group funds and instruments

In order to obtain information on the financial instruments held in the portfolio that are issued by the Management Company or by its affiliates, please refer to the sections:

- Additional information,
- Group financial instruments held in the portfolio in the annual financial statements for the year ended, attached hereto.

Calculating overall risk

- Overall risk calculation method: the mutual fund uses the commitment calculation method to calculate the mutual fund's overall exposure to financial contracts.
- Leverage - Funds to which the risk calculation method is applied Indicative leverage level: 99.50%.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Regulatory information

Selection procedure for brokers and counterparties

The Broker Selection Policy draws up and implements a policy which enables it to comply with the Fund's obligation under Art.314-75 (iv) while meeting the requirements set out in Art L.533-18 of the French CMF. For each class of instrument, the policy selects the organizations that will be commissioned to execute orders.

AMUNDI execution policy may be consulted on the AMUNDI website.

Investment advice service

The Fund Manager has not prepared a "Report on Brokerage Expenses" since it has not used any investment advice services.

Report on broking fees

A report on broking fees is available for bearers. It can be viewed at the following web address: www.amundi.com.

Remuneration Policy

Remuneration policy and practices of the AIFM/Management company

The remuneration policy implemented by Amundi Asset Management is compliant with the rules in terms of remuneration specified in the Directive 2011/61/UE of the European Parliament and of the Council of June 8th 2011 on Alternative Investment Fund Managers (the "*AIFM Directive*"), and in the Directive 2014/91/UE of July 23rd 2014 on undertakings for collective investment in transferable securities (the "*UCITS V Directive*"). These rules, about remuneration policies and practices, have for objective to promote sound and effective risk management of fund managers and the funds they manage.

Moreover, the remuneration policy is compliant with Regulation (EU) 2019/2088 ("SFDR"), integrating sustainability risk and ESG criteria in Amundi control framework, with responsibilities spread between the first level of controls performed by the Investment teams and second level of controls performed by the Risk teams, that can verify the compliance with ESG objectives and constraints of a fund at all time.

This policy is incorporated within the framework of the remuneration policy of Amundi reviewed each year by its Remuneration Committee. The latter checked the application of the remuneration policy in relation to the 2021 fiscal year, its compliance with the AIFM/UCITS Directives' principles and approved the policy applicable for the 2022 exercise at its meeting held on February 1st 2022.

In 2022, the implementation of the Amundi remuneration policy was subject to an internal, central and independent audit, driven by the Amundi Internal Audit.

1.1 Amounts of remuneration paid by the Management companies to its employees

In 2022, Amundi Asset Management's headcount increased due to the integration of Lyxor's employees.

During fiscal year 2022, the total amount of compensation (including fixed, deferred and non-deferred variable compensation) paid by Amundi Asset Management to its employees (1 673 employees at December 31st 2022) is EUR 202 172 869. This amount is split as follows:

- Total amount of fixed remuneration paid by Amundi Asset Management in 2022: EUR 134 493 396, which represents 67% of the total amount of compensation paid by Amundi Asset Management to its staff, were in the form of fixed remuneration.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

- Total amount of variable compensation deferred and non-deferred paid by Amundi Asset Management in 2022: EUR 67 679 473, which represents 33% of the total amount of compensation paid by Amundi Asset Management to its staff, were in this form. The entire staff is eligible for variable compensation.

Additionally, some 'carried interest' was paid by Amundi AM with respect to fiscal year 2022, and is taken into account in the total amount of bonus referred to here above.

Of the total amount of remuneration (fixed and variable compensation deferred and non-deferred) paid during the fiscal year, EUR 19 393 477 were paid to the 'executives and senior managers' of Amundi Asset Management (31 employees at December 31st 2022), and EUR 16 540 119 were paid to the 'senior investment managers' whose professional activities have a material impact on Amundi Asset Management's risk profile (50 employees at December 31st 2022).

1.2 Alignment of remuneration policy and practices with risk profile of the AIFs/UCITS

The Amundi Group has adopted and implemented remuneration policy and practices compliant with the latest norms, rules, and guidelines issued from the regulatory authorities for its management companies (AIFM/UCITS).

The Amundi Group has also identified all of its 'Identified Staff', that include all the employees of the Amundi Group having a decision authority on the UCITS/AIFM management companies or the UCITS/AIFs managed and consequently likely to have a significant impact on the performance or the risk profile.

The variable remuneration awarded to the Amundi Group staff takes into account the performance of the employee, its business unit and the Amundi Group as a whole, and is based on quantitative and qualitative criteria as well as the respect of sound risk management rules.

The criteria taken into account for performance assessment and remuneration award depends on the nature of the employee's functions :

1. Management and selection of AIFs/UCITS functions

Quantitative criteria:

- IR/Sharpe over 1, 3, 5 years
- Gross/absolute/relative performance of the investment strategies (based on GIPS composites) over 1, 3, 5 years, outlook mainly focused on 1 year, adjusted with long-term figures (3,5 years)
- Performance risk adjusted based on IR/Sharpe over 1, 3, 5 years
- Competitive positioning through Morningstar rankings
- Net inflows / Successful requests for proposals, mandates
- Performance fees generation
- ESG rating of the funds according to different providers when applicable (Morningstar, CDP...
- Respect of ESG beat the benchmark, ESG exclusion policies and climate transition index.

Qualitative criteria:

- Compliance with risk policy, compliance and legal rules
- Quality of management
- Innovation/product development
- Collaboration/Sharing of best practices
- Commercial engagement – including the ESG component of commercial effort and flows
- ESG
 - Compliance with ESG policy and participation to the ESG and net-zero offering
 - Integration of ESG into investment processes
 - Capacity to promote and project ESG knowledge internally and externally
 - Extent of proposition and innovation in the ESG space
 - Demonstrates capacity to manage well the combination of risk return and ESG (the risk and ESG adjusted return).

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

2. Sales and marketing functions

Quantitative criteria:

- Net inflows, notably on ESG and impact denominated products
- Revenues
- Gross Inflows
- Client base development and retention; product mix
- Number of commercial activities per year, notably prospection activities
- Number of clients approached on their net zero strategy.

Qualitative criteria:

- Compliance with risk policy, compliance and legal rules
- Joint consideration of Amundi's interests and of client's interests
- Securing/developing the business
- Client satisfaction
- Quality of management
- Cross-functional approach and sharing of best practices
- Entrepreneurial spirit
- Capacity to explain and promote ESG policies and capabilities as well as solutions of the firm.

3. Control and support functions

For control and support functions, performance assessment and remuneration award are independent from the performance of the business they oversee.

Common criteria taken into account are:

- Mainly criteria related to the meeting of objectives linked to their functions (risk management, quality of controls, completion of projects, tools and systems improvement etc.)
- When financial criteria are used, these are mainly related to management/ optimization of expenses.

The above-mentioned performance criteria, and specifically those applicable to Identified staff in charge of the management of AIFs/UCITS, comply with the applicable regulation as well as to the AIF's/UCITS investment policy. These internal rules of Amundi Group contribute to a sound and effective risk management.

Furthermore, Amundi Group has adopted and implemented, for its entire staff, measures aiming to align remuneration with long-term performance and risks in order to avoid conflicts of interest.

In this respect, notably:

- The deferral policy has been adapted to comply with the AIFM and UCITS V Directives' requirements.
- The deferred portion of variable compensation for identified staff members is awarded at 100% in instruments indexed on the performance of a representative basket of AIFs and/or UCITS funds.
- The actual payment of the deferred portion is linked to the financial situation of Amundi Group, to the continued employment within the group and to a sound and effective risk management over the vesting period.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Fund Compliance with criteria relating to environmental, social, and governance quality (ESG) objectives

AMUNDI uses targeted exclusion rules as a basis of its fiduciary responsibility. They are applied in all active management strategies and consist in excluding companies that are not compliant with either our own ESG policies or the international agreements and internationally-recognised or national regulatory frameworks. These targeted exclusions are implemented subject to compliance with the applicable laws and regulations, unless otherwise stipulated in dedicated products or services contracts.

AMUNDI excludes the following activities:

All direct investment in companies involved in the production, sale, or storage of, or services for, anti-personnel mines or cluster bombs, pursuant to the Ottawa Treaty and the Oslo Convention on Cluster Munitions.

Companies that produce, store, or sell chemical, biological, and/or depleted-uranium weapons.

Companies that seriously and repeatedly violate one or more of the Ten Principles of the UN Global Compact without implementing credible corrective measures.

These issuers receive a “G” rating on the AMUNDI scale. In addition, AMUNDI implements specific sectoral exclusions targeting the coal and tobacco industries. These sectoral exclusions apply to all active management strategies that give AMUNDI full discretion over its portfolio management.

Coal Policy

AMUNDI excludes:

- Companies developing or planning to develop new thermal coal capacity within the entire value chain (producers, extractors, power plants, transport infrastructure).

Companies whose income is over 25% the result of thermal coal mining.

- Companies that extract 100 MT or more thermal coal annually with no intention of reducing these quantities.

- All companies that derive over 50% of their total income before analysis from thermal coal mining and coal-fired power generation.

- All coal-fired power generation and coal mining companies with a threshold of 25% to 50% and a deteriorated energy transition score.

Application in passive management:

• Passive ESG funds

All ETF and ESG index funds (with the exception of highly-concentrated indices) implement AMUNDI’s policy of excluding the coal sector wherever possible.

• Passive non-ESG funds

In passive management, it is a fiduciary duty to replicate an index as faithfully as possible.

Limited flexibility is afforded to portfolio managers, which are required to meet contractual objectives to achieve passive management that is entirely in line with the requested benchmark index.

Consequently, AMUNDI’s index funds and ETFs that replicate standard (non-ESG) benchmark indices cannot systematically apply sectoral exclusions.

At the same time, in the context of securities excluded from the “thermal coal policy” in AMUNDI’s active investment universe but that may be present in non-ESG passive funds, AMUNDI has reinforced its voting and commitment activities, which may translate to a “nay” vote on the management of the companies in question.

Tobacco policy

Since 2018, AMUNDI has limited its ESG ratings for tobacco companies to “E”, on a scale of A to G (with G-rated companies excluded), in order to take account of concerns, not just around public health, but also the human rights violations, poverty, environmental consequences, and considerable economic cost associated with tobacco, evaluated at over \$1,000 billion per year worldwide, according to World Health Organisation estimates. The reason for this limit is to penalise investment in this type of company, which must be offset by investment in more virtuous companies. AMUNDI’s policy applies to the entire the tobacco sector, including suppliers, cigarette manufacturers, and distributors.

In May 2020, AMUNDI became a signatory to the Tobacco-Free Finance Pledge, thereby reinforcing its tobacco exclusion policy. AMUNDI implements the following rules:

- Exclusion rules: companies manufacturing finished tobacco products are excluded (application thresholds: income of over 5%).

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

- Limitation rules: Companies involved in the manufacture, supply, and distribution of tobacco are limited to an ESG rating of E (on a scale of A to G) (thresholds: income of over 10%).

Further information on how AMUNDI takes ESG criteria into account is available at <https://legroupe.amundi.com>

* *Active management: excluding indexed funds and ETFs subject to constraints by their benchmark index.*

SFDR and Taxonomy Regulations

Article 6

The fund does not promote sustainable investment in its portfolio management strategy.

The investments underlying this financial product do not incorporate European Union criteria for environmentally sustainable economic activities.

Auditor's Certification

**STATUTORY AUDITOR'S REPORT
ON THE FINANCIAL STATEMENTS
For the year ended 30 December 2022**

AMUNDI ETF MSCI EMU HIGH DIVIDEND UCITS ETF
UCITS CONSTITUTED AS A *FONDS COMMUN DE PLACEMENT*
Governed by the French Monetary and Financial Code (*Code monétaire et financier*)

Management company
AMUNDI ASSET MANAGEMENT
90, rue Pasteur
75015 Paris
France

Opinion

In compliance with the assignment entrusted to us by the management company, we conducted an audit of the accompanying financial statements of AMUNDI ETF MSCI EMU HIGH DIVIDEND UCITS ETF, a UCITS constituted as a *fonds commun de placement*, for the year ended 31 December 2021.

In our opinion, the financial statements give a true and fair view of the assets and liabilities and of the financial position of the fund at 30 December 2022 and of the results of its operations for the year then ended, in accordance with French accounting principles.

Basis of our opinion

Audit standards

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Our responsibilities under these standards are described in the section "*Statutory Auditor's responsibilities for the audit of the financial statements*" in this report.

Independence

We conducted our audit engagement in compliance with independence requirements of the French Commercial Code (*code de commerce*) and the French Code of Ethics (*code de déontologie*) for statutory auditors, from 01/01/2022 and up to the date of this report, and in particular we did not provide any prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No. 537/2014.

AMUNDI ETF MSCI EMU HIGH DIVIDEND UCITS ETF

Justification of our assessments - Key audit matters

In accordance with the requirements of articles L.823-9 and R.823-7 of the French Commercial Code relating to the justification of our assessments, we bring to your attention the key matters as regards to the risk of material misstatement that, in our professional judgement, were the most significant for the audit of the financial statements, as well as how we addressed those risks.

These assessments were made as part of our audit of the financial statements, taken as a whole, and therefore contributed to the opinion we formed which is expressed above. We do not provide an opinion on individual items in the financial statements.

<i>Key audit matters</i>	<i>Audit response to cover these risks</i>
<p>The main risks of the fund relate to the financial instruments in its portfolio.</p> <p>Any error in recording or valuing these financial instruments could lead to a misstatement in the calculation of the fund's net asset value and in the financial statements.</p> <p>We therefore focused our work on the existence and valuation of the financial instruments in the portfolio.</p> <p>Valuation of financial instruments traded on a regulated or equivalent market</p> <p>Valuation of the fund's financial instruments traded on a regulated or equivalent market is not complex as it is based primarily on listed prices provided by independent sources.</p> <p>However, the related amounts are significant and could lead to a material misstatement.</p> <p>The value of the financial instruments traded on a regulated or equivalent market is recorded in the balance sheet and presented in the detailed portfolio provided in the notes to the financial statements. The valuation rules for these financial instruments are disclosed in the "Significant accounting policies" note to the financial statements.</p>	<p>We compared the year-end valuation of the fund's financial instruments traded on a regulated or equivalent market with observable prices obtained from market databases.</p>
<i>Key audit matters</i>	<i>Audit response to cover these risks</i>
<p>Valuation of financial contracts traded over the counter</p> <p>As part of its investment strategy, the fund uses over-the-counter swaps. The valuation of these swaps is not observable on a regulated or</p>	<p>We verified that the swap's valuation as recorded at year-end agreed to the value communicated by the counterparty to the swap.</p>

PricewaterhouseCoopers Audit, 63, rue de Villiers 92208 Neuilly-sur-Seine Cedex, France
T: +33 (0) 1 56 57 58 59, F: +33 (0) 1 56 57 58 60, www.pwc.fr

Société d'expertise comptable inscrite au tableau de l'ordre de Paris - Ile de France. Société de commissariat aux comptes membre de la compagnie régionale de Versailles.
Société par Actions Simplifiée au capital de 2 510 460 €. Registered office: 63 rue de Villiers 92200 Neuilly-sur-Seine. RCS Nanterre 672 006 483. TVA n° FR 76 672 006 483. Siret 672 006 483 00362. AMUNDI ETF MSCI EMU HIGH DIVIDEND UCITS ETF

<p>equivalent market. The valuation of over-the-counter swaps is therefore a key audit matter.</p> <p>The value of the swap is recorded under the line item "financial contracts" in the balance sheet and presented in the detailed portfolio provided in the notes to the financial statements. The commitment related to the swap is presented in the off-balance sheet statement. The valuation rules for these financial instruments are disclosed in the "Significant accounting policies" note to the financial statements.</p>	<p>We gained an understanding of the internal control procedure performed by the management company over swaps valuation. We verified that this procedure had been applied at year-end.</p>
<p>Existence of financial instruments</p> <p>The portfolio's financial instruments are held in custody or maintained by the fund's depositary. The depositary certifies the existence of financial instruments at year-end.</p> <p>There is nonetheless a risk that these financial instruments could be inaccurately or only partially recorded in the fund's accounting.</p> <p>The existence of these financial instruments is a key audit matter as the related amounts are material and could lead to a material misstatement.</p>	<p>We verified the existence of the portfolio's financial instruments by reviewing the fund's reconciliation between the fund's financial instruments held at year-end and these identified by the depositary in an account opened in the fund's name. Any material differences were examined, if applicable using trade tickets or contracts.</p>

Specific verifications

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by laws and regulations.

We have no matters to report as to the fair presentation and the consistency with the financial statements of the information given in the management report prepared by the management company.

AMUNDI ETF MSCI EMU HIGH DIVIDEND UCITS ETF

Disclosures arising from other legal and regulatory requirements

Appointment of the Statutory Auditors

We were appointed as Statutory Auditor of AMUNDI ETF MSCI EMU HIGH DIVIDEND UCITS ETF , a UCITS constituted as a *fonds commun de placement*, by the management company on 31 December 2008.

At 30 December 2022, our firm was in the fifteenth consecutive year of its engagement, i.e. the fifteenth year following the admission of the fund's securities for trading on a regulated market.

Responsibilities of the management company for the financial statements

It is the management company's responsibility to prepare the fund's financial statements presenting a true and fair view in accordance with French accounting principles and to implement the internal control that it deems appropriate for the preparation of financial statements that do not contain material misstatements, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the fund's ability to continue as a going concern, disclosing in the financial statements, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the fund or to cease operations.

It is the management company's responsibility to monitor the preparation of financial information and oversee the efficiency of the internal control and risk management system and the internal audit system relating to the preparation and processing of financial and accounting information.

These financial statements have been prepared by the management company.

Statutory Auditor's responsibilities for the audit of the financial statements

Audit purpose and approach

It is our responsibility to prepare a report on the financial statements. Our objective is to obtain reasonable assurance about whether the financial statements, taken as a whole, are free of material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As indicated in article L.823-10-1 of the French Commercial Code, our statutory audit of the financial statements is not to guarantee the viability or the quality of your management.

AMUNDI ETF MSCI EMU HIGH DIVIDEND UCITS ETF

As part of an audit conducted in accordance with professional standards applicable in France, the Statutory Auditor uses professional judgement throughout the entire audit.

He also:

- identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence that is sufficient and appropriate to provide a basis for his opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control;
- evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the financial statements;
- concludes on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the fund's ability to continue as a going concern. Such conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are not provided or inadequate, to issue a qualified opinion or a disclaimer of opinion;
- evaluates the overall presentation of the financial statements and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Notes to the annual accounts

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

1. Accounting rules and methods

The annual financial statements are presented in the form prescribed by ANC regulation 2014-01, as amended.

General accounting principles are applied:

- true and fair view, comparability, and going concern,
- compliance, accuracy,
- prudence,
- consistency of accounting methods from one year to the next.

Revenues from fixed-income securities are recognised on the basis of interest actually received.

Securities bought and sold are recognised excluding costs.

The portfolio's accounting currency is the euro.

The duration of the reporting period is 12 months.

Asset valuation rules

Financial instruments are recognised according to the historical cost method and are entered in the balance sheet at their present value, which is determined by the last-known market value or, if no market exists, by any external means or through the use of financial models.

Differences between the present values used to calculate net asset values and the historical costs of securities when they are first included in the portfolio are recorded under "Valuation differences".

Securities that are not denominated in the portfolio currency are valued in accordance with the principle described below and then converted into the portfolio currency at the exchange rate applicable on the day of the valuation.

Deposits:

Deposits with a remaining term of up to 3 months are valued according to the straight-line method.

Equities, bonds, and other securities traded on a regulated or equivalent market:

For the calculation of the net asset value, equities and other securities traded on a regulated or equivalent market are valued on the basis of the final trading price of the current day.

Bonds and equivalent securities are valued at the closing price supplied by various financial service providers. Interest accrued on bonds and equivalent securities is calculated up to the net asset value date.

Equities, bonds, and other securities not traded on a regulated or equivalent market:

Securities not traded on a regulated market are valued under the responsibility of the management company using methods based on the asset value and the yield, taking into consideration the prices applied in recent significant transactions.

Negotiable debt securities:

Negotiable debt securities and equivalent instruments for which transaction amounts are not significant are valued on an actuarial basis according to a reference rate defined below, plus any differential representative of the issuer's intrinsic characteristics:

- Negotiable debt instruments with a maturity of 1 year or less: Euro Interbank Offered Rate (Euribor);
- Negotiable debt instruments with a maturity of more than 1 year: Rate of normalised annual interest Treasury bills (BTAN) or fungible Treasury bills (OAT) with equivalent maturity for the longest durations.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Negotiable debt instruments with a residual maturity of 3 months or less may be valued according to the straight-line method.

Treasury bills are marked to market at the rate published daily by Banque de France or Treasury bill specialists.

UCI holdings:

UCI units or shares are measured at their last known net asset value.

Securities lending and borrowing:

Securities borrowed under repurchase agreements are recorded in assets under "Receivables representing securities held under repurchase agreements" for the amount specified in the contract plus accrued interest receivable.

Securities lent under repurchase agreements are booked in the long portfolio at their present value. The liability representing these securities is recorded in the short portfolio at the value fixed in the contract plus accrued interest payable.

Lent securities are valued at their present value and are recorded in assets under "Receivables representing lent securities" at their present value plus accrued interest receivable.

Borrowed securities are booked to assets under "Borrowed securities" at the amount provided for in the agreement, and to liabilities under "Payables representing borrowed securities" at the amount provided for in the agreement, plus accrued interest payable.

Forward financial instruments:

Forward financial instruments traded on a regulated or equivalent market:

Forward financial instruments traded on regulated markets are measured at the daily clearing price.

Forward financial instruments not traded on a regulated or equivalent market:

Swaps:

Interest rate and/or currency swaps are marked to market based on the price calculated by discounting future interest flows at the market interest and/or exchange rates. This price is adjusted to take into account the issuer's creditworthiness risk.

Index swaps are marked to market using the index fixing price as mentioned in the fund prospectus. Prices are provided by the counterparty and are verified by the Asset Manager.

The portfolio's performance swap is measured based on the prices determined by the counterparty and validated by the Asset Manager using mathematical financial models.

Other swaps are marked to market or recognised at a value estimated according to the methods established by the management company.

Off-balance-sheet commitments:

Futures appear in off-balance-sheet commitments for their market value at the price used in the portfolio.

Options are translated into the equivalent underlying asset.

Commitments on swaps are shown at their nominal value or, in the absence of a nominal value, for an equivalent amount.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Management fees

Management fees and operating costs include all fund-related costs: financial management, administrative, accounting, custody, distribution, auditing fees, etc.

These fees are charged to the fund's profit and loss account.

Management fees do not include transaction fees. Further information about the fees charged to the fund can be found in the prospectus.

They are recorded on a pro-rata basis at each net asset value calculation.

The aggregate of these fees complies with the maximum fee rate as a percentage of net asset value indicated in the prospectus or the rules of the fund:

FR0010790980 - AMUNDI ETF STOXX EUROPE 50 UCITS ETF: Maximum fee 0.15% including tax.

Allocation of amounts available for distribution

Definition of amounts available for distribution

Amounts available for distribution consist of:

Result:

The net income for the reporting period is equal to the amount of interest, arrears, premiums and bonuses, dividends, directors' fees, and any other income arising from the portfolio securities, plus income from any amounts temporarily available, minus management fees and borrowing costs.

Retained earnings are added to net income, and the balance of accrued income is added or subtracted as appropriate.

Capital gains and losses:

Realised capital gains, net of costs, less realised capital losses, net of costs, recorded during the financial year, plus net capital gains of the same nature recorded in previous financial years that were not distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

Allocation of amounts available for distribution:

<i>Unit(s)</i>	<i>Allocation of net income</i>	<i>Allocation of net realised capital gains or losses</i>
AMUNDI ETF STOXX EUROPE 50 UCITS ETF units	Accumulation, and/or Distribution, and/or Carried forward at the asset manager's discretion	Accumulation, and/or Distribution, and/or Carried forward at the asset manager's discretion
