Objective and Investment Policy

The Fund is a passively managed index-based UCITS. The Fund's objective is to replicate, both upwards and downwards, the performance of the TOPIX® Gross Total Return Index (gross dividends reinvested) (the "Benchmark"), denominated in Japanese yen (JPY) and representative of all Japanese shares listed in the first section of the Tokyo Stock Exchange, while minimising the tracking error between the performance of the Fund and that of the Benchmark. The expected level of the Tracking Error under normal market conditions is indicated in the Fund prospectus. The Japan Exchange Group website (www.jpx.co.jp/english/) contains more detailed information about the Japan Exchange Group indices. The Fund aims to achieve its objective through direct replication, namely by investing primarily in the components of the Benchmark. In order to optimise Benchmark replication, the Fund may use a sampling technique, as well as guaranteed temporary sales of securities. Any use of these techniques is indicated on the website amundiETF.com. The updated composition of the portfolio of securities held by the Fund is mentioned on the website amundiETF.com. In addition, the indicative net asset value appears on the Fund's Reuters and Bloomberg pages and may also be mentioned on the Fund's stock exchange websites.

* Source : Amundi. The above cover complete periods of 12 months for each calendar year. **Past performance is no predictor of current and future results and does not guarantee future yield**. Any losses or gains do not take into consideration any costs, commissions and fees incurred by the investor in the issue and buyout of the shares (e.g. taxes, brokerage fees or other commissions deducted by the financial intermediary). If performance is calculated in a currency other than the euro, any losses or gains generated can thereby be affected by exchange rate fluctuations (both upward and downward). The discrepancy accounts for the performance difference between the portfolio and the index.

Risk indicators (Source: Fund Admin)

	1 year	3 years	Inception to date *
Portfolio volatility	14.64%	16.85%	19.77%
Benchmark volatility	14.63%	16.84%	-
Ex-post Tracking Error	0.23%	0.23%	-
Sharpe ratio	2.54	1.33	0.30

* Volatility is a statistical indicator that measures an asset's variations around its average value. For example, market variations of +/- 1.5% per day correspond to a volatility of 25% per year. The higher the volatility, the higher the risk. The Tracking Error indicator measures the performance's difference between the fund and the benchmark

EQUITY

Risk Indicator (Source : Fund Admin)

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-fund's performance. Please refer to the MULTI UNITS FRANCE prospectus.

The SRI represents the risk and return profile as presented in the Key Information Document (KID). The lowest category does not imply that there is no risk. The SRI is not guaranteed and may change over time. The risk indicator assumes you keep the product for 5 years. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

Index Data (Source : Amundi)

Description of the Index

The Topix Total Return Index JPY is composed of all Japanese equities listed on the Tokyo Stock Exchange's First Section.

Each share is weighted according to its market capitalization. The Topix Total Return Index JPY is therefore very representative of the Japanese economy since it consists of a significant number of companies that happen to be the largest capitalisations of the place. The index methodology is available at www.tse.or.jp

MONTHLY COMMENTARY (Source: Amundi)

Management commentary

The eurozone delivered a positive surprise in July, with a preliminary estimate of Q2 growth significantly exceeding expectations. The Q2 flash GDP came in at +0.4% quarter-on-quarter (compared to 0.1% in Q1), bringing annual growth to +1.0% (versus +0.5% in Q1). This rebound follows several quarters of stagnation amid an energy shock linked to the conflict in the Persian Gulf.

The resumption of hostilities in the Persian Gulf weighed on investor sentiment in July. The dominant theme of the month was the sharp correction in semiconductor and memory stocks, which had driven markets higher in the first half of the year. Investors became increasingly skeptical about the future profitability of capex by tech giants in artificial intelligence infrastructure.

The decline in US and Asian markets was partially offset by the outperformance of European and Chinese stock exchanges, which recorded gains of +0.5% for the Eurostoxx 50 and +13.9% for the HSCEI. In Europe, several large companies reported strong Q2 results as investors sought new themes. For example, Airbus saw a strong increase in its profits, as did Deutsche Bank and BNP Paribas, which confirmed a significant rise in their earnings.

**MONTHLY COMMENTARY (Source: Amundi)**

Management commentary

Oil prices were extremely volatile in July, driven by the ups and downs of the Iran-US conflict. Brent crude reached a peak of \$102 before returning to around \$90 depending on periods of tension and calm. In the currency market, the dollar depreciated slightly. The euro-dollar moved back above 1.15 at the end of the month. The Fed's decision to keep its key rates unchanged supported emerging market currencies. The yen, meanwhile, appreciated by 3.2% following interventions in the currency market. Gold rose by 1.0% to \$4046/ounce but remains under pressure.

Important information

Note on the Fund management company and the fund

The Fund is described in a Key Information Document (KID), or Key Investor Information Document (KIID) for UK investors, and prospectus. The Funds KID, or KIID for UK investors, must be made available to potential subscribers prior to subscription.

The prospectus in Dutch for French UCITS ETFs, for Luxembourg UCITS ETFs and Irish ETFs, and the KID in English are available free of charge on www.amundi.com. They are also available from the headquarters of Amundi Luxembourg S.A. (as the management company of Amundi Index Solutions and Multi Units Luxembourg), or the headquarters of Amundi Asset Management (as the management company of French FCPs and Multi Units France), or at the headquarters of Amundi Ireland Limited (as the management company of Amundi ETF ICAV and Amundi ETF II ICAV). Regarding Funds admitted on a regulated market, the listing is subject to a volatility control mechanisms to ensure that the ETF price does not deviate significantly from a reference price set by the listing rules of the relevant regulated market, notably through the implementation of a trading halt mechanism in case of significant deviation from this reference price.

The Fund offers no capital guarantee. Investors may not get back the full amount of their initial investment, particularly in the event that the benchmark index falls. Subscribing to a UCITS may involve risks. Potential investors are advised to read the Funds risk profile, which is described in detail in the prospectus. The amount that is reasonable to invest in the Fund will depend on the personal circumstances of each investor. To determine this amount, investors should take into account their financial situation, personal assets, and current and future requirements, as well as considering their willingness to accept risks or conversely their preference to invest cautiously. Investors are also strongly recommended to sufficiently diversify their investments so as to avoid being exposed solely to the risks of this Fund. Investors should therefore seek advice in this regard from their usual advisors (legal, tax, financial and/or accounting) before purchasing any units of the Fund.

The source of the data contained in this document is Amundi Asset Management unless otherwise stated.

Policy regarding portfolio transparency and warning on secondary market

The policy regarding portfolio transparency and information on the funds assets are available on amundiETF.com. Shares purchased on the secondary market cannot usually be sold directly back to the fund. Investors must buy and sell shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. Investors may pay more than the current net asset value when buying shares and may receive less than the current net asset value when selling them.
